

# OARBOARD FOR SALE

**TOURING PADDLEBOARD, OARBOARD, DREHER SWEEP OARS, TRAILER  
COMPLETE PACKAGE \$3495.00**

Every so often a new product comes along that really rattles your cage. The Oar Board, an invention that converts your stand-up paddle board to a smooth-as-silk single scull rowing boat. Just in case you don't know: in sculling, a seated rower uses oars to propel watercraft. The oars touch the water on both the port and starboard sides. The revolutionary Oar Board sliding rigger system attaches to your stand-up paddle board quickly (with just a few straps) and turns most boards into the meanest machine of a rowing animal that ever flew across a lake. **In minutes, your sup board becomes a single scull boat that one person can use to scull quickly up and down the Thames or across any lake or bay.** Perfect in Lake Tahoe, Sparks Marina or any lake and river. So much fun...

## **Stand Up Paddle Touring**

SUP USA is dedicated to continuing the growth of stand up paddling on oceans, lakes, and rivers. SUP USA is also committed to your own personal growth in the sport and so we bring you the Talon Touring Board bundle.

Recreational paddleboards are shaped to ride on top of the water. The Talon's aggressive design cuts through the water making it purpose built for distance and adventure paddling.

### **Board Construction and Features**

The Talon Touring Board is constructed of premium materials and truly unique features that make this board more convenient and enjoyable to use. At 31" Wide, you will notice right away how stable and steady the board feels while standing still or paddling at speed. The aggressive shape gives you more glide and speed out of each stroke and the additional floatation allows you to pack on the gear for camping, fishing, and any other adventures you can dream up.

### **Features:**

- Displacement Nose – cuts through the water
- Wood Grain Nose Panel
- ConnexSUP Modular Accessory Anchor
- Automatic Vent Plug
- EVA Memory Foam Traction Pad
- LiftSUP Easy Carry Handle
- Four (4) Rear Cargo Anchor Points
- Keel Fin

### **Construction and Dimensions:**

- 1.5 lb. Molded EPS Foam Core for Added Strength and Rigidity
- JPS Fiberglass and Epoxy Resin
- 11'6" (L) x 31" (W) x 5.75" Thick
- Weight 33 lb.
