### Halloween EGG CARTON CRAFTS

#### Instructions to create:

Begin by cutting out the individual egg cups from the carton. Next you are going to paint the egg cups with two coats of acrylic paint. You need two egg cups for each project. Set aside to dry.

Once dry, use the Sharpie to draw on fun facial features to one egg cup (from each pair). The mouths happen quite naturally as egg cups tend to have lower points on the sides. Now fill the bottom of your treat box. Once you have filled the base, pop the head on, and tie a scrap of ribbon around him, knotting it at the top.
